June 2011

Dear Mr. Stewart,

A few months ago when you sent a gift to Smile Train, I promised to send you a photo of a child who was recently helped by your generosity. And here it is!

Jordan Lee Loterte is just five years old. As you can see from his “before” photo, he had a severe cleft lip – making it impossible for him to smile. Thankfully for Jordan, Dr Mary Grace Nario at Marikina St. Vincent Hospital in the Philippines was able to repair his cleft, and now he can’t stop smiling!

Jordan’s “after” photo was taken shortly after his surgery, and Dr Nario says his family couldn’t be happier. What a difference you made in this little boy’s life!

Jordan’s pictures are living proof that your gifts change lives. But he’s not the only child who needs our help. This year our goal is to help more than 100,000 children (and send out lots of photos to great friends like you). That’s a lot of children. But with your help, I know we can help them.

Thanks so much for helping children like Jordan – we couldn’t do it without friends like you.

All the best,

Priscilla Ma
Executive Director

P.S. There are millions of children like Jordan who live with the daily agony of a cleft – can you help us save one more of them? Thanks again for “coming aboard” Smile Train – your support inspires us and motivates us every day of the year!

Jordan Lee Loterte, 5 years old
Marikina St. Vincent Hospital, Philippines
Surgery Date: 12th April 2011
Surgeon: Dr. Mary Grace Nario
